

GUNASEKARAN SELVARASU

Senior Full Stack Developer | Node.js • React.js • Next.js • TypeScript • AWS

Chennai, Tamil Nadu, India | +91 89732 21644 | sguna0100@gmail.com

LinkedIn: linkedin.com/in/gunasekaran-selvarasu | GitHub: github.com/gunasekaran-selvarasu | Portfolio: gunasekaran-selvarasu-five.vercel.app

PROFESSIONAL SUMMARY

Results-driven Senior Full Stack Developer with 5+ years of experience engineering high-performance web applications, scalable microservices, and modern responsive frontends. Demonstrated track record architecting server-side rendered (SSR) enterprise SaaS platforms, designing relational MySQL and NoSQL MongoDB datastores, and implementing robust JWT/OAuth 2.0 authentication systems. Proven expertise in AWS cloud deployments and CI/CD pipelines, optimizing Core Web Vitals by 35%+, reducing API query latency by 28%, and accelerating feature delivery velocity by 30%.

TECHNICAL SKILLS

- **Frontend Engineering:** React.js, Next.js (App Router, SSR, SSG), TypeScript, JavaScript (ES6+), Redux Toolkit, Context API, Tailwind CSS, Material UI (MUI), Ant Design (AntD), HTML5, CSS3, Responsive UI/UX, Web Accessibility (WCAG / a11y)
- **Backend & APIs:** Node.js, Express.js, RESTful APIs, Microservices Architecture, GraphQL, Middleware, Webhooks, Serverless Functions
- **Databases & Caching:** MongoDB (Mongoose, Aggregation Pipelines), MySQL (Relational Schema Design, Indexing, Transactions, ACID), Redis (In-Memory Caching)
- **Cloud & DevOps:** Amazon Web Services (AWS EC2, S3, CloudFront CDN, Route 53, Amplify, IAM, AWS WAF), Docker, GitHub Actions CI/CD, Git, Linux/Unix Shell
- **Authentication & Security:** JSON Web Tokens (JWT), OAuth 2.0 (SSO/Social), OTP / MFA Authentication, Role-Based Access Control (RBAC), CORS, Helmet.js, CSRF/XSS Protection
- **Tools & Testing:** Jest, React Testing Library, Postman, Vite, Webpack, ESLint, RazorPay, PayPal Payment Gateways, npm/yarn, Agile/Scrum

PROFESSIONAL EXPERIENCE

Senior Software Engineer | **Doodleblue Innovations** – Chennai, India (Jun 2025 – Apr 2026)

- **Led cross-functional engineering squads** delivering enterprise fullstack web platforms using React.js, TypeScript, Node.js, and MongoDB.
- **Engineered scalable RESTful microservices** with Express.js, optimizing database query aggregation pipelines and caching layers to reduce API response latency by 28%.
- **Implemented end-to-end security architecture** utilizing stateless JWT with automated token refresh cycles, CORS validation, and Role-Based Access Control (RBAC).
- **Established reusable frontend component libraries** leveraging Tailwind CSS and Ant Design, standardizing UI patterns and accelerating feature development cycle velocity by 30%.
- **Governed centralized client-state pipelines** using Redux Toolkit, synchronizing asynchronous API data streams seamlessly across distributed dashboard modules.
- **Mentored 6+ junior/mid-level engineers** in modern TypeScript practices, clean code conventions, and automated unit testing, cutting code review iteration cycles by 25%.

Software Developer (Full Stack) | **W2S Solutions** – Chennai, India (Jan 2024 – May 2025)

- **Architected cloud-native enterprise SaaS applications** utilizing Next.js (Server-Side Rendering & App Router), React.js, TypeScript, and Node.js microservices.
- **Modeled high-traffic relational MySQL schemas** with structured foreign key constraints, indexing strategies, and ACID transaction safety, reliably managing 500K+ records.
- **Configured end-to-end AWS cloud infrastructure** (S3 static hosting, CloudFront edge CDN, EC2 provisioning, Route 53 DNS routing), reducing latency by 40% and cutting cloud infrastructure costs.
- **Constructed automated CI/CD pipelines** using GitHub Actions, enabling zero-downtime production deployments and shrinking release cycles from hours to minutes.

- **Built secure multi-tenancy authentication workflows** incorporating HTTP-only cookies, CSRF protection headers, and session-based access control.

Senior Programmer Analyst | Genxlead Solutions – Chennai, India *(Nov 2023 – Dec 2023)*

- **Refactored legacy monolithic JavaScript codebases** into modular, strongly typed TypeScript and Express.js REST API endpoints, reducing regression bug rates by 35%.
- **Deployed automated serverless frontend builds** on AWS Amplify and configured Route 53 latency-based routing policies to optimize regional load times.

Programmer Analyst (Full Stack) | Touchmark Descience – Chennai, India *(Aug 2020 – Aug 2023)*

- **Delivered 10+ responsive web platforms and e-commerce applications** using React.js, Node.js, Express.js, MySQL, Material UI (MUI), and Tailwind CSS.
- **Integrated multi-currency payment gateways** (RazorPay and PayPal) with backend webhook listeners and cryptographic signature validation to guarantee transaction integrity.
- **Boosted Google Core Web Vitals by 35%+** (LCP, FID, CLS) by implementing code-splitting, dynamic route imports, and responsive asset optimizations.
- **Built administrative analytics dashboards** with Material UI and Chart.js, incorporating multi-factor OTP verification and role-permission gates.
- **Maintained 99.9% application uptime** across multi-tier AWS deployments utilizing EC2, S3 asset buckets, and AWS WAF security rules.

KEY PROJECTS

Asian School of Business (ASB) Academic Portal | Next.js, TypeScript, Node.js, Redux Toolkit, JWT *(Featured Platform)*

- **Engineered an enterprise academic management platform** featuring real-time student portals, dynamic course enrollment, and role-based administrative dashboards.
- **Implemented Next.js Server-Side Rendering (SSR)** synchronized with Node.js REST services, ensuring sub-1.2s First Contentful Paint (FCP) and optimal SEO indexing.

Commercial Billing & POS Inventory System | React.js, Material UI, Node.js, MongoDB, Express *(Retail Platform)*

- **Developed a fullstack retail billing and inventory management portal** featuring real-time barcode scanning, stock deduction logic, and automated invoice PDF generation.
- **Implemented high-performance MongoDB aggregation pipelines** for instant sales reporting and multi-branch inventory tracking across retail locations.

Meii AI Analytics Platform Dashboard | React.js, Ant Design, TypeScript, Node.js, AWS S3 *(AI Dashboard)*

- **Built an interactive analytics dashboard** featuring predictive metrics, model accuracy tracking charts, and token consumption analytics using React.js and Ant Design.
- **Integrated AWS S3 pre-signed URLs** for secure client-side file uploads and automated model output pipelines.

RadPrix & Velaan Mandi Marketplaces | Next.js (SSR), MySQL, Node.js, RazorPay, AWS EC2 *(E-Commerce)*

- **Launched high-availability e-commerce marketplaces** featuring real-time stock sync, catalog search filtering, and end-to-end checkout with RazorPay and PayPal.
- **Designed relational MySQL order and customer tables** with strict ACID compliance, relational integrity, and high-concurrency lookup indexing.

CERTIFICATIONS

- **AWS Certified Cloud Practitioner** – Amazon Web Services (AWS) | Credly ID: da73f66c-5901-455c-a2c6-0748ee3e55af
Core Domains: Cloud Architecture & Deployment, AWS Security & Compliance (IAM, WAF), Billing Optimization, Core Services (EC2, S3, CloudFront, Route 53).

EDUCATION

- **Master of Computer Applications (MCA)** – E.G.S. Pillay Engineering College (Autonomous) | **CGPA: 8.95 / 10.0 (First Class with Distinction)**
- **Bachelor of Computer Applications (BCA)** – E.G.S. Pillay Arts and Science College | **Score: 79.5% (First Class)**
